

Elevate Your Automation Experience

Andrew+ Pod

Where cutting-edge technology meets unparalleled convenience.

Andrew+ Pod

Filtration add-ons

**One solution.
Multiple configurations.
Tailored benefits.**

Benefit from a hassle-free bench top solution that delivers effective sample or user protection while elevating your automation experience.

Protect your samples

Dust cover

Fully enclosed or with onboard air ventilation

Vertical Laminar Flow (VLF) with HEPA filtration

- 99.995% of particles moved
- Airflow speed of .20 m/s

or

Protect yourself

Safety interlock

Prevents unwanted access to the workbench

Recirculatory Filtration Fume Cabinet (RFFC) with ABEK filtration

- Effective removal of harmful gases
- Can be positioned anywhere in the lab

Clutter-free workspace

Space-efficient cable management system for a tidy and safe automation workspace.

Easy, 3-step installation

Install the Andrew+ Pod & chosen filter, connect the Andrew+ Robot.

Compact, benchtop

Full workbench of 11 consumable holders and devices. Minimal footprint.

Efficient sample or user protection

Ventilation conditions optimized and validated by a 3rd Party for all configurations.

Improved traceability

Monitor and log environmental parameters like temperature and VOC levels directly through OneLab™.

Andrew+ Pod Feature Summary

No compromises.

Andrew+ Pod enables a full automation deck - on any standard bench.

End to end workflows. Simplified.

Maintain an enclosed automation environment while expanding functionality.

Technical Specifications

Warranty	1 Year
Fan noise level (at max speed of 2000 rpm)	56 dB(A) at 1 m
Minimal Benchtop Dimensions Required (cm)	106 (width) x 57 (depth)
Dimensions (cm) W x D x H	112 x 81 x 82.8 (max height of 139.8 w/ sash open)
Weight of Andrew+ Pod	44 Kg
Weight of Onboard Ventilation System	5.8 Kg
External Power Supply Input Characteristics	Power Supply Voltage Range: 85–264 VAC AC current: 1.85 A/115 VAC 1.0A/230 VAC Frequency: 47–63 Hz
Operating Temperature	+4° to +37°C
Operating Humidity	Maximum relative humidity of 80% for temperatures up to 31°C
Interface	CAN bus directly connected to waste Domino of Andrew+ Robot
Degree of Protection	IP 20

Vertical Laminar Flow w/ HEPA Filtration	
HEPA - H14 Filter Efficiency	Removes 99.995% of particles ≥ 0.3 µm
Average Airflow speed (Vertical Laminar Flow)	0.20 m/s
Filter Lifetime (HEPA)	1–3 years depending on usage
ISO 14644-1 Rating	ISO Class 5

Harmful Gas Removal w/ ABEK Filter	
Enclosure Classification	Recirculatory Filtration Fume Cabinet (RFFC)
ISO standard	ISO 14175-3
Containment Performance	CP2, 3rd-Party tested by SKAN AG
